

DURASOURCE ZONE LIGHTS

A BRIGHT BORDER FOR FORKLIFT TRUCKS

Create a visible border around forklift trucks with Zone Lights from DuraSource.

Zone lights may be used to help alert pedestrians to their surroundings by creating a border they can see with bright LED lights. The Zone Lights from DuraSource project a colored line (red, blue, green or white) along the floor, signaling pedestrians to stay back from the lift truck. Plus an additional style is available in red or blue light that is even brighter.

Zone Lights are useful in busy and noisy warehouses and distribution centers to alert a pedestrian of a forklift's location. Besides lift trucks, the zone lights may also be used with other mobile equipment such as scissor lifts or aerial work platforms to highlight a work zone.

Installation is easy and does not require permanent mounting, so the light may be removed when not in use. Attach one light to each side of the lift truck to create a border around the lift truck.

Help increase pedestrian awareness to avoid the path of a forklift with Zone Lights from DuraSource.

PRODUCT SPECIFICATIONS

ZONE LIGHTS

Zone Lights - 80" long

939-12388B

Blue Beam

939-12388R

Red Beam

939-12388G

Green Beam

939-12388W

White Beam

Specifications

Beam Pattern	Line
Approx Beam Size	80" long @ 3' from side of truck & 75" off the floor
Lens Material	Polycarbonate
Housing Material	Aluminum
Voltage / Wattage	10-80 VDC / 15 Watt
Lumens	400
Housing Dimensions	4.5" diameter x 3.125" depth
Mounting	Universal pedestal mount (nuts and bolts included)
Mounting Harness	Preinstalled on light (not removable)

Zone Lights - 105" long

939-13358B

Blue Beam

939-13358R

Red Beam

Specifications

Beam Pattern	Line
Approx Beam Size	105" long @ 3' from side of truck & 75" from the floor
Lens Material	Polycarbonate
Housing Material	Aluminum
Voltage	10-80VDC
Lumens	1350
Housing Dimensions	2.44"W x 3.9"H x 2.22"D
Mounting	Mounting bracket (nut, bolt, washer included)
Mounting Harness	Preinstalled (not removable)

Accessories

939-11859 Magnet and coiled harness kit

939-12697 12V rechargeable power pack, harness, connectors and magnet mount kit
